Résumé

Full Stack Developer | Open to Opportunities

Hello! I'm a passionate Full Stack Developer with a strong foundation in both front-end and back-end technologies. Recently graduated and eager to bring my skills in JavaScript, React, Node.js, Java, and database management to a dynamic team where I can contribute, learn, and grow.

What I Bring:

- ✓ Strong problem-solving skills & a love for clean, efficient code
- ✓ Experience building responsive web apps using modern frameworks
- ✓ Knowledge of RESTful APIs, databases (SQL/NoSQL), and cloud platforms
- ✓ Collaborative mindset & quick adaptability to new technologies

Looking For:

Entry-level/Junior Full Stack Developer roles
Opportunities to work on impactful projects with a talented team
Remote, hybrid, or on-site positions

Let's connect! I'm excited to explore new opportunities and contribute to innovative tech solutions.

Open to job offers & collaborations – Feel free to reach out!
